

# Professional Operator

**PRO**

## Course description

The Professional Operator course consists of practical training that focuses on the operation and interplay of the mechanical and electronic functions of the Hunkeler machines. Operators are trained specifically for production optimization and job preparation.

## Content

- Operation
- Enhanced parameters for operating personnel
- Weekly cleaning work
- Production optimization
- Application set-up

## Target group

- Supervisor / Shift supervisor
- Senior Operator

## Profile of qualification

- Professional experience in paper processing
- Manual skills
- Analytical thinking and approach
- Reliable, careful and cautious work methods

## Objectives and Benefits

- Optimization of production
- Increase availability
- Systematic set-up

## Training location

On-site or at the Hunkeler Training-Center in Wikon (Switzerland). During on-site training, no production can be done on the customer system.

## Training inquiry

Please send us your training inquiry\* online immediately at [www.hunkeler.ch/training](http://www.hunkeler.ch/training)

\*Required information: type of course, dates, language of instruction, number of persons, address, contact information with telephone and fax number plus an e-mail address.
